

BM Webb Precast specialises in the design and manufacture of precast panels.

BM Webb Precast is a Townsville based precast factory, specialising in the design and manufacture of precast panels for use in the construction of warehouses, office buildings, apartments and houses.

BM Webb Precast operates as part of BM Webb Group with its factory located at Webb Drive, Bohle. The specialised factory allows BM Webb Precast to produce a quality product in a safe environment. Our portfolio includes projects in Townsville and the surrounding areas. Ask us about our pre-painting and delivery services.

BM Webb Precast now operates under the AS/NZS ISO9001:2008 Certified Quality Management system.

Contact us today to find out how BM Webb Precast can assist you or visit our website at [www.bmwebb.com](http://www.bmwebb.com).
