**Brad's update**

"The definition of insanity is doing the same thing again and again expecting a different outcome."

The year has started with a different twist to where we would have thought. The devastation of the South East Queensland near record floods to our current crisis of cyclone Yasi seems to have no end, and we are still only at the start of the wet season. Our thoughts go out to all the people affected.

BM Webb Group is supporting the Townsville people as we assist emergency crews by clearing Gulliver, Currajong and Vincent roads to help provide access

for emergency services and the local people. To the members of our staff and Steve McKenzie Engineering staff who have volunteered their time, thank you.

As for the BM Webb Group, 2010 was a good year considering the economy. The Townsville Marine Precinct Alliance project at the Townsville Port has been a blessing for our Quarry and Transport divisions, keeping drivers and operators in constant employment during a time of year that is usually tough. On behalf of BM Webb Group, I'd like

to thank the guys at Laing O'Rourke for choosing local companies, they are a great company to deal with and we have built a strong relationship with the guys on site.

Construction has been tough but we have capitalized on this to catch up on our maintenance and to improve on our Management Systems, I believe we will come out stronger from these slow times.

I would like to thank you for your past support and look forward to supporting you in every way we can in 2011.

Kevin Stewart: 10 Years of Service, the second time

Kevin joined the BM Webb Group in the 80's and worked for us until I sold our sand and soil business. In September 1994, I started to rebuild the Group Civil and Transport Equipment fleet to start the Webb Drive Estate and Kevin and the late Ray Reilly were two of my old original crew that came back the minute I said I needed some good blokes to work on the Estate.

In November 2010, Kevin completed 10 years with BM Webb Group, not including when he worked for BM Webb

Haulage, our original transport company.

I can remember in the old 1418 Mercedes Benz, he would work long hours and keep the

old truck going. He worked extremely hard and skillfully to keep the 1418 going and tirelessly worked doing many other difficult tasks, including

helping change and fit old tyres I had gotten from the dump that I thought I could get a little bit more out of to replace some of our other more than well worn tyres. He stuck by me and never complained. Kevin Stewart is one of the old school, a deal is a deal and a hand shake is his bond. Kevin, you have been and will continue to be an important part of the company's history and a great friend.

Congratulations from everyone at BM Webb Group on completing 10 years of Service with the Group.

FOOD RELIEF
Feeding the Needy **NQ**

SAFETY WEEK BBQ

The BM Webb Group recently held a BBQ lunch to reinforce the importance of safety during Safety Week. We had the majority of our workforce at the BBQ, along with two invited guests from Workplace Health and Safety.

The discussion held was on all aspects of safety, with an emphasis on looking after each other and reporting unsafe practices so that all employees go home in the same state that they arrived to work in.

Safety week was an excellent opportunity to refocus employees on everyone's responsibilities on safety and to keep us all on the same safe page year round. A big thank you to Bronwyn Foster for organizing the event and also to Matt Allan and his crew at the Panel Yard for giving us a clean and safe venue to hold the BBQ.

Remember to work smart and stay safe as safety is everyone's responsibility.

Perry McDonald constructs new Holden dealership

Townsville prestige builder Perry McDonald Constructions is the builder of the new Holden dealership for Tony Ireland. The new facility is well underway, and BM Webb Group were proud to supply civil works, concrete, steel fabrication, precast panels and quarry products. This job has not only been a fantastic job for the BM Webb Group, but it shows the faith that Tony Ireland has in the Townsville economy and BM Webb Group congratulate Tony for this.

Townsville City Council and BM Webb Group, working together after Cyclone Yasi

To help restore normality to the Townsville community, Townsville City Council asked BM Webb Group to take over the full clean up of Gulliver, Currajong and Vincent, which includes clearing and loading out fallen trees and debris to clear the roads so that emergency crews may gain access to homes.

Rodney Allan has taken on the responsibility of project leader, which consists of around twenty plant and equipment and above twenty labourers. A big thank you to Rodney and his crew for putting aside their current projects to make the streets of Townsville safe again.

Become a part of Webb Drive Industrial Estate!

We have a great opportunity for businesses who would like to expand their facility to a secure location. As part of a unit development, BM Webb Group has available on Webb Drive a warehouse of 860m², with an internal office. This site has good concrete hardstand so access is great.

If you would like to know more about this opportunity, contact our office on 47747880.

team member profile Matthew Allan

Matt started at BM Webb Group in 2003 as a contract Electrician and Labourer. In 2005 he travelled to Darwin to do the Electrical work for MTU Detroit Diesel. While there, he was slowly trained as a supervisor.

"Finishing this job was a big achievement for me and I started to realise that being a Project Manager was what I wanted to do," says Matt of his time in Darwin.

Matt was also a supervisor on projects in Mackay, and also had a major role in the Construction of the Pacific National Rail Terminal at Stuart, BM Webb Group's biggest single project to date. After taking on roles in supervising riggers, internal transport, and concreters, Matt has now taken on his toughest role to date, as Precast Panel Factory Manager. Matt's ability to adapt to new situations and step up to a challenge gives BM Webb Group the faith that he will succeed in this role and take BM Webb Precast to the next level.

Matt is contactable on 0438 685 365 or matt@bmwebb.com

BM Webb Quarry

- Crusher dust
- Aggregates
- Road bases
- Rock products
- Sand
- Top soil
