## Brad's update

The last quarter has flown by, with the completion of 2 major projects keeping all our divisions busy.

The first to be completed was the new facility for Brown & Hurley Townsville. Len Roberts is a personal friend of mine. The pride and detail that has gone into this building by my staff is phenomenal and this building stands as a testament to just how much BM Webb Group has evolved over the last 30 years. From Quarry to Concrete, Precast and Construction, everyone in BM Webb Group has been involved in this project and we are extremely proud of the results. Congratulations to Len and the Brown and Hurley team, we know you are just as proud of the outcome as we are. TNT Australia moved into Webb Drive Industrial Estate recently and I'd like to personally thank

Doug Winton of TNT. During negotiations and all through construction, we found Doug to be fair and reasonable, and he is a gentleman to deal with. His knowledge of the business spans over some 30 years. Welcome to TNT and thank you again to all staff involved in this project, we are very pleased with the facility.

A few changes have occurred in BM Webb Group during the last three months, namely Glen Gray has taken on the position of Concrete Plant Manager. Glen is focused on providing customers with quality product and service and his knowledge of the industry means he is well equipped to take on this position and succeed in it.

Allan McNee, who has been with the company for over 15 years, has accepted a new position and is now Operations Manager of the Quarry. Taryn Webb is now Quarry Manager, while still running Sales and Transport. I have faith that each of these people will perform over and above the previous high standards set.

The new crusher at the Quarry is almost operational. The components are all coming together and we should be fully operational in approximately one to two months.

Issue 3 of BM Webb Bulletin will provide more information on the crusher, so make sure you get your copy when it is out in October.

## Congratulations to Brown and Hurley Townsville

BM Webb Group are pleased to welcome Brown and Hurley Townsville to their new facility, located at 662 Ingham Road, Bohle. BM Webb Group are proud to have been chosen to construct this premier building and both BM Webb Group and Brown and Hurley are pleased with the results.

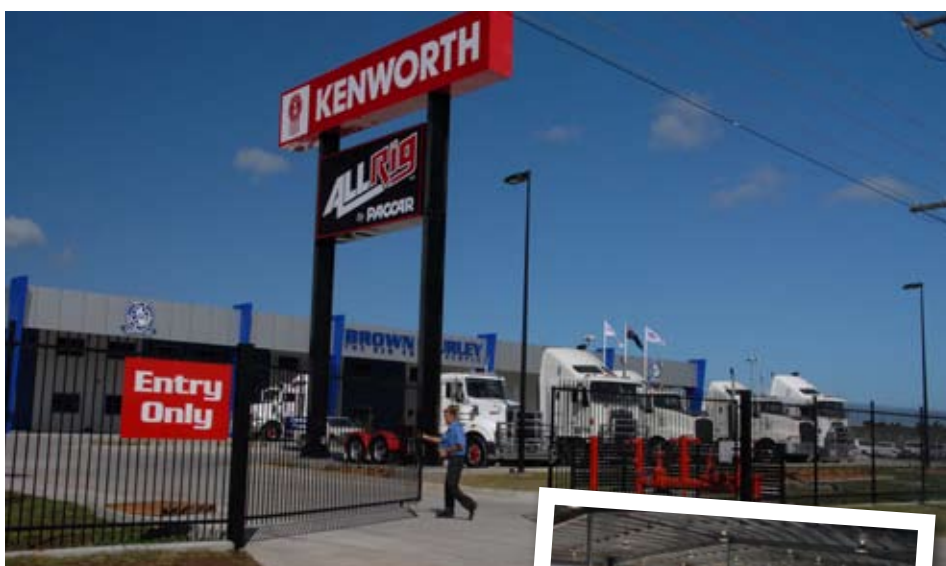

BM Webb Group not only constructed the new Brown and Hurley premises, but supplied all Quarry Products, Concrete, Precast Panels, Structural Steel and Civil works. The quality of our products speak for themselves and this building is a shining example of the pride and effort BM Webb Group put into all their products.

At the official opening on 15th May, Len Roberts, Dealer Principal of the Townsville Branch said,

"When BM Webb Group were awarded the project by the Brown and Hurley Board, to say I was happy would be an understatement.

After 31 years of doing business together, being friends and watching our respective families grow up, I know you didn't have to build this building. You wanted to build this building for us.

Your enthusiasm for the project has cascaded

down to everyone in your organization who has been involved.

There are three people who I would especially thank. They are Rodney, Matt and Jimmy. Their honesty, professionalism and attention to detail has not only ensured that the project was completed on time, but made this building one of the premier buildings in regional Queensland. They have done you proud."

This new building stands as a testament to Brown and Hurley Group and the commitment and faith they have in the

growth of Townsville and all of the North Queensland Coast.

Congratulations to Brown and Hurley Townsville, we look forward to continuing our successful relationship with you in the future.

# Australia's biggest morning tea

On Thursday 27th May, BM Webb Group joined many Australians to host a Morning Tea to support the Cancer Council. Around 30 people attended and we raised over \$3,000.00 to support this worthy cause. A big thank you to Doug Thomas from Reid, who donated a Ramset Tool and

John Gainey from Big Hammer who donated a Wheel barrow, both items were auctioned off to raise proceeds for the Cancer Council. A special mention to Stacey Caldwell from Xpresso Delights, who provided us with a Coffee Machine free of charge. Many thanks to everyone who donated money and who brought a plate to share.

## Purchase of the new Kenworth T408SAR

To coincide with the opening of the new Brown and Hurley facility, BM Webb Group wanted to be one of the first companies to purchase a new Truck from Brown and Hurley's new facility. Our Kenworth T408SAR arrived in time for the official opening and was the first new truck delivered out of the facility.

BM Webb Group operate a fleet of approximately 40 trucks,

ranging from small landscaping trucks to multi-combination road trains. Our fleet work in many different tasks from delivery of concrete, structural steel, Precast panels, bulk cement powder, containers from the wharf to the delivery of our Quarry products. Brown and Hurley have been the main supplier of our heavy duty trucks for over 30 years

### Glen Gray

BM Webb Group extends a warm welcome to Glen Gray, who has joined our team as the Manager of our Concrete Plant. Glen comes to us

with over 20 years in the Industry, including Managing Concrete Plant's in the Townsville

## team member profile

region and being an owner driver of a Concrete Agitator. Glen's experience and knowledge will be an asset to BM Webb Concrete. Glen can be contacted at the Concrete Plant on 4774 6607 or 0414 870 782 or via email at [glen@bmwebb.com](mailto:glen@bmwebb.com). For all sales enquiries, please continue to contact Taryn Webb on 0415 033 930. BM Webb Group welcomes Glen to our team.

## Australian Red Cross BLOOD SERVICE Donor Mobile

at Webb Drive on Thursday 22nd July.

## Welcome to TNT

TNT Australia are now fully operational in their new site in the Webb Drive Industrial Estate. TNT are located at 149-155 Webb Drive, Bohle and began operations on 17th May 2010. BM Webb Group designed this purpose built facility in conjunction with TNT's National Property Manager, Doug Winton. Their design was tough due to many factors, including tight time frames, fitting of their state of the art package handling system and the size and span of their large open awning. This span put our engineer, Steve McKenzie, to the test, but as always, Steve came up

with the winning solution.

The large awning is extremely beneficial for the TNT bulk operation ensuring customer freight is well protected in all weather conditions especially the tropical wet season.

The new depot is just under 5,000m2 and houses TNT's 35 local staff. It provides TNT with more streamlined operational efficiencies to benefit the various service requirements of its customers.

We thank TNT for choosing BM Webb Group and wish them well.

### BM Webb Quarry

- Crusher dust
- Aggregates
- Road bases
- Rock products
- Sand
- Top soil
